

Trading Bot Pro — Executive Report

Overview:

Trading Bot Pro is a multi-exchange, multi-strategy trading bot designed for high-frequency trading. It supports multiple exchanges, including Binance and KuCoin, and offers a variety of trading strategies. The bot is built with a robust architecture, featuring a multi-strategy engine, backtesting capabilities, and a secure vault-based secrets management system. It is designed to be highly scalable and reliable, with a focus on minimizing latency and maximizing trade accuracy.

Key Highlights:

- Multi-Exchange: Binance, KuCoin
- Multi-Strategy Engine + Backtesting
- Vault-based Secrets + CI/CD + Monitoring

KPI Targets:

- Uptime $\geq 99.95\%$
- P95 Latency $< 200\text{ms}$
- Trade Accuracy $\geq 99.9\%$
